

Klove serves me by providing a spiritually uplifting radio broadcast that reinforces my faith and beliefs. Most of what is broadcast by commercial stations is "garbage".

If Klove were to be replaced by an LPFM station it would cause a great financial burden to change broadcast equipment. This would be a waste of resources.

Klove provides a service in the public interest as an alternate to commercial stations in many ways. First of all it is faith based. It also provides counseling services to anyone in need. It fills a need and niche that is nowhere else served.
